Xenoy® Safety Padlock Features

- Durable padlock weighs only 4 ounces, making it easy to carry many
- Temperature tested from -70° F to +350° F
- Excellent corrosion resistance
- UV stable
- No silicone used in padlock
- Over 101,000 unique safety key codes available. Over 1 million possible codes with optional key cylinders.
- Keyed Different, Keyed Alike and Master Keyed options
- Key retaining – ensures padlock is not accidentally left unlocked
- Includes one key to ensure compliance with OSHA guideline of one employee, one padlock, one key
- Available in 8 colors
- Body sides and face can be laser engraved for permanent identification
- Sealed keying system ensures your safety lockout system stays pure by preventing haphazard rekeying and the accidental introduction of duplicate key codes
- Your facility's padlocks can be key charted to ensure no duplicate key numbers are supplied and accidentally handed out to multiple employees
