

Padlock Stations

These durable, user-friendly lockout stations provide a central location for necessary safety lockout/tagout components.

YOU CHOOSE THE PADLOCKS FOR YOUR NEEDS.

Master Lock

AMERICAN LOCK

Master Lock

Xenoy® Padlocks – Non-conductive, lightweight bodies with permanent write-on labels for worker identification. Key retaining feature ensures that padlocks are not left unlocked. Reserved-for-Safety, high security, 6-pin cylinder offers over 100,000 possible key changes.

Anodized Aluminum Padlocks – Heavy duty padlocks feature a durable anodized finish. The 5-pin cylinder offers over 10,000 key changes to minimize risk of key duplication within a facility.

Steel Padlocks – Durable, general security padlocks have reinforced laminated steel construction to withstand physical abuse and a 4-pin cylinder offering up to 1,400 key changes.

Padlock Stations

Virtually Indestructible, the Strongest Stations Available

- Integrated, one-piece molded construction eliminates loose parts
- Resilient polycarbonate material provides twice the heat resistance and quadruple the impact strength of typical stations
- Reinforced snap-lock clips provide easy padlock and hasp storage and removal
- Exclusive translucent cover protects contents
 - Lockable to prevent loss of valuable safety lockout padlocks. Recommend using a combination lock for simple access control.
 - Innovative hinge holds cover open for easy product selection
- Available with your choice of designed for safety Xenoy®, Aluminum or Steel padlocks in 4, 10 or 20 lock formats
- Safety Hasps and Tags included
- PLUS, a no-charge Safety Lockout Padlock Key Charting System is available to you. Simply return the enclosed mail-in card after your purchase. Master Lock will supply a Registered System number, maintain a record of the padlock key cuts provided with your station and ensure that there is no unwanted padlock key cut duplication on your future orders – this is critical for Safety Lockout!
